# Photography

« back to the kindercenter´s activities

## What is photography

Is it really only an activity during which you are running up and down and in some moment you take a picture, or is it something more? Of course, it is something more ;) Photography is like painting, just you don't need paintings and brushes to make a picture, but the camera and something more. It is an art as painting. Taking pictures and photography have its place in our lives. Can you imagine life without them? We can not..., this is just one reason why we would like to familiarize your child with this beautiful art. .

## Why = reason to decide

Once you decide to take pictures, each situation will be an opportunity for photography and your child will understand this quickly, too .

**Photography as any other art is developing:**

- fantasy and creativity
- communication skills
- vigilance and attention to detail
- last but not least, sense for memories and their preservation in „picture image"

## How

The photography courses are focused on making a digital pictures and their postprocesing. Activities are designed to bring to children the joy of photography & the whole pic´s creation they perceived as a game. They learn to shoot spontaneously but also staged situations .

Photography courses **we will start in May 2011** We will notify you by phone or mail a specific date for the start of the course. We will meet 1per week. The course has 8 sessions

**Schedules** **»more** **Price list** **»more** *(is displayed only after* ***»login****)*

**Open courses in these age groups of children:**

- from age of 4 do do 6 years

Maximum capacity is 6 children in one course.
